## MAYTAG

### What's Inside Matters™

For over 100 years, you've heard a lot about our drum rollers and drawer gaskets, our belts and hinges - the commercial grade parts we put inside our appliances. Those parts matter. They make our machines among the most dependable washers, ranges and refrigerators around. We know that dependability means something a little more to you than just parts and pieces. It means having cold champagne to pop when the clock strikes midnight. Having virtually spotless glasses when your friends drop in. And cutting into a perfectly baked cake on your daughter's 10th birthday. It means having all the stuff you depend on clean, cold and cooked - on time, every time.
